ME ON HOLD!

USES : Plotting graphs, solving simultaneous equations and using variables.

FEATURES : The TI-84 Plus CE Graphing Calculator is a must-have for math from the middle grades through high school. With a numeric display notation, it can show up to 10 digits on the easy-to-read LCD screen. The Boolean operations entry logic ensures that this calculator is suited for a variety of purposes, including select professional tests. It is approved for use on PSAT, SAT, ACT, AP, or IB exams.
